

Ready to be Commercialized

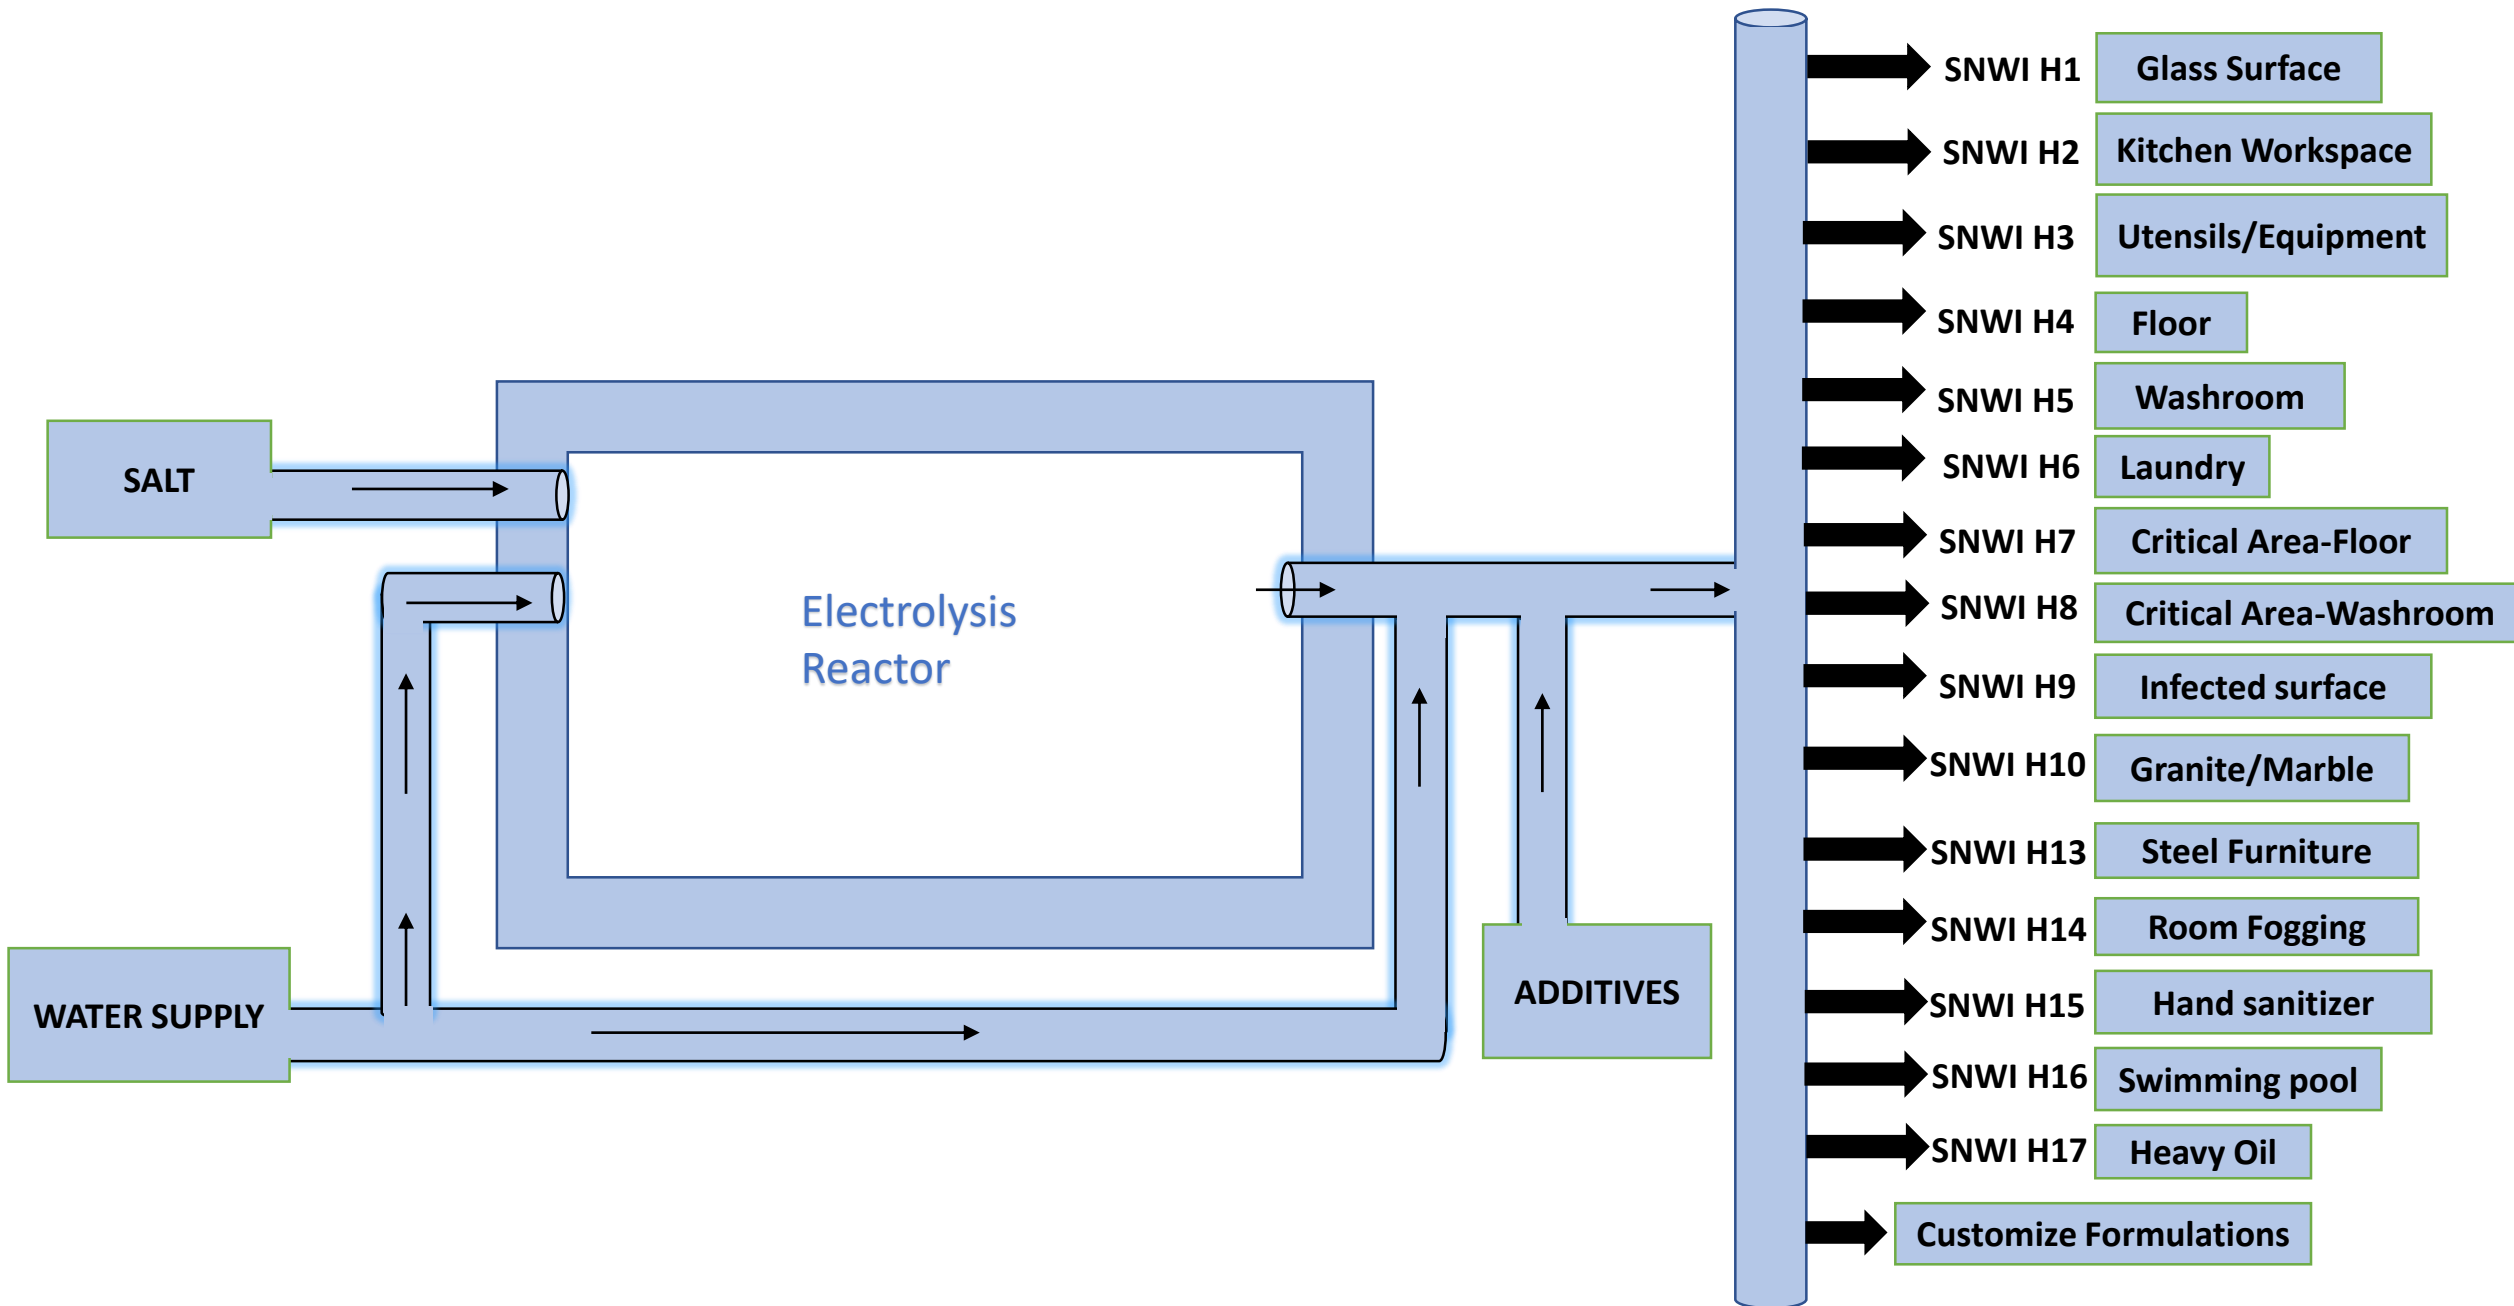

Hydrocleaner™ Pro-Flask

Hydrocleaner™ Pro-Tank

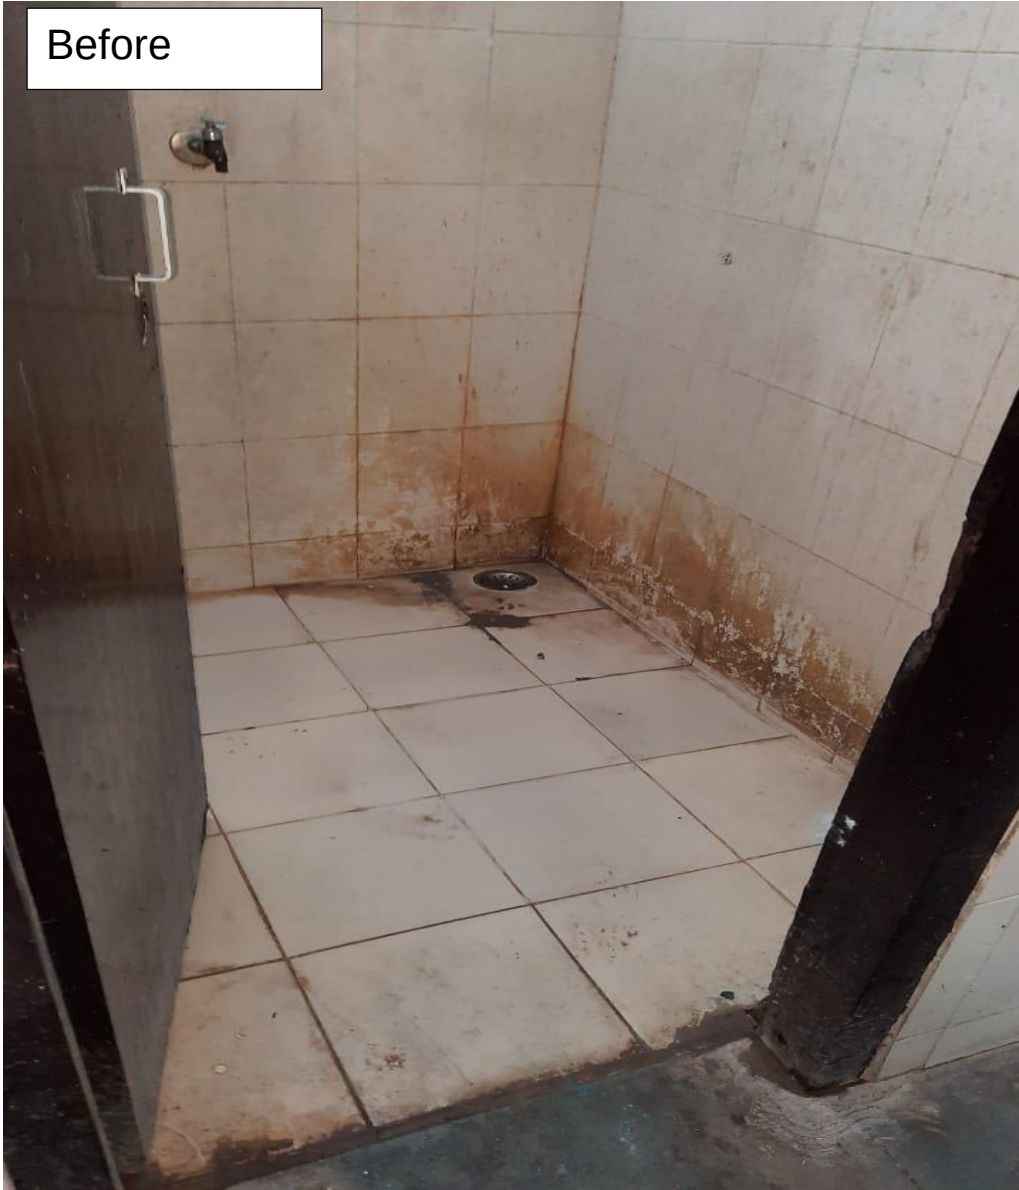

- ✓ Touch the screen for required formula and it will be automatically dispensed. It is very easy to be used. No need to dilute it, no risk of wrong manipulation, no wrong dosage.
- ✓ All formulas made by yourself and for yourself, in a few seconds.
- ✓ It is produced on the spot, hence always fresh & in optimal condition.
- ✓ No need to keep stock of conventional hazardous goods and no risk of stock shortage
- ✓ Through its Wi-Fi remote control, it can independently be operated in all corners of the country.

The liquid produced by machine looks like water; but it is much more than plain water. It contains a series of active agents and is able to clean, deodorize & disinfect. It is biodegradable. It has a pH in a neutral range.
